Dear Mr/Mrs

I am writing this letter to express my interest in the Senior UI / Web Designer jobs for freelance or full time.

I believe that I can begin making valuable contributions to the design & developer team . I possess a wide range of abilities that combine innovative art and design principles. Furthermore, my expert knowledge of Adobe Illustrator, Adobe Photoshop, HTML, and CSS will allow me to play a crucial role in the implementation of your design initiatives.

With more than 5 years experience as Web Designer , I am adept in concept design, project management and final design implementations. Moreover, while my on-the-job experience has afforded me a well-rounded skill set, i excel at:

- Designing layout, producing images and developed styles for Apps, Websites etc
- Contributing creative ideas during corporate baintstorming sessions.
- Proritizing workloads and coordinating multiple ongoing projects.
- Make mockups and prototypes from App Design or Web Design

In addition to my experience and personal qualities, I have solid educational foundation and a passion for design. I am extremely enthusiastic about trend design and would welcome the opportunity to contribute to you and your clients ongoing business success.

Enclosed is my resume for your review. I welcome the opportunity to discuss with you personally how my skills and strengths can best serve your company. I appreciate your time and consideration.

Sincerely,

Erwin Prasetyo

## Education

2006 - 2013

Universitas Mercu  
Buana

S1 Fakultas Desain Produk

Starting college while working, because i have to pay tuition fees with my own money. I studied at Mercu Buana University, Jakarta, entered in 2006 and graduated in 2013.

Not graduating immediately does not mean that I am stupid, besides because I have to work in an office, I enjoy studying and receive "design jobs" from college friends. Make assignments and participate officially in helping friends in doing the final project.

Graduated in 2013, with a **final grade of 3.69** (out of 4.00) and got the *cum laude* predicate, finally I was able to **make my mother happy**, because I was sure that none of my neighbors got *cum laude* like me.

2004 - 2006

LPKT Gramedia

D1 Program Profesi Desain Grafis

This is the first time I got to know graphic design. Learn graphic design at the place recommended by my brother, LPKT - Gramedia. I studied for 1 year, with practitioner lecturers who had a lot of experience

## What I Do

### App Design

Being a UI designer is rewarding, challenging, and fun. You get to work with people but also quite a lot with software as you design compelling apps and website experiences.

### Web Design

I started my career as a web designer in 2012. Make design and implemented it with CSS & HTML. And in the same year I learn and mastering CMS WordPress, and yes with my experienced, I'm proud to call myself WordPress Expert (*Walhamdulillah*).

### Icon Design

I like creating icons. The shape is small, but it represents a product but from another form.

### T-Shirt

Sometimes I make things outside of my main profession. The most fun thing is making t-shirt designs, because there I can make something according to my personal desires.

# FEATURED PORTFOLIO

### FINALIST IDEABOX BATCH 2

With this design, I and the team become finalists. ideabox is a tech business incubator powered by Indosat, and supported by Ooredoo Group.

Ortu – The app design I created is a parenting app, to remind parents to be better parents.

# CONTEST WINNING

Understand what client, need and make it into mockup design. Here some example design from contest 99designs, that i won
